

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently Amended) Encapsulated organic UV filters in powder form, obtainable by spray-drying or freeze-drying a dispersion comprising ~~encapsulated organic UV filters~~ encapsulated by silica gel or silicon dioxide.
2. (Previously Presented) UV filters in powder form according to Claim 1, wherein the dispersion is aqueous.
3. (Cancelled)
4. (Cancelled)
5. (Cancelled)
6. (Cancelled)
7. (Currently Amended) UV filters according to Claim [[4]]1, wherein the capsules comprise further substances.
8. (Previously Presented) UV filters according to Claim 7, wherein the substances are photostabilizers, cosmetic oils and/or antioxidants.
9. (Previously Presented) UV filters in powder form according to Claim 1, wherein the powder is additionally after-treated.
10. (Previously Presented) Process for the preparation of encapsulated organic UV filters in powder form according to Claim 1, comprising spray-drying or freeze

drying dispersions of encapsulated organic UV filters.

11. (Cancelled)
12. (Cancelled)
13. (Previously Presented) Process according to Claim 10, wherein the UV filters are in particulate form.
14. (Previously Presented) Process according to Claim 13, wherein the size of the UV filters in particulate form is 10 nm to 100  $\mu$ m.
15. (Previously Presented) Process according to Claim 10, wherein additives are introduced before or during the process.
16. (Previously Presented) Process according to Claim 10, wherein the UV filters in powder form are after-treated.
17. (Previously Presented) Compositions having light-protection properties comprising UV filters in powder form according to Claim 1.
18. (Previously Presented) Composition according to Claim 17, which it is a composition which can be applied topically.
19. (Previously Presented) Decorative cosmetics comprising a composition according to Claim 17.
20. (Previously Presented) Composition having light-protection properties according to Claim 17, additionally comprising at least one organic and/or inorganic UV filter.

21. (Previously Presented) Composition having light-protection properties according to Claim 17, comprising at least one self-tanning agent.
22. (Previously Presented) Composition having light-protection properties according to Claim 17, comprising at least one photostabilizer.
23. (Previously Presented) Composition according to Claim 22, wherein the photostabilizer is compounds of formula V

V,

where

$R^1$  is  $-C(O)CH_3$ ,  $-CO_2R^3$ ,  $-C(O)NH_2$  and  $-C(O)N(R^4)_2$ ;

X is O or NH;

$R^2$  stands for a linear or branched  $C_{1-30}$ -alkyl radical;

$R^3$  stands for a linear or branched  $C_{1-20}$ -alkyl radical,

all  $R^4$ , independently of one another, stand for H or linear or branched  $C_{1-8}$ -alkyl radicals

$R^5$  stands for H, a linear or branched  $C_{1-8}$ -alkyl radical or a linear or branched -O- $C_{1-8}$ -alkyl radical and

$R^6$  stands for a  $C_{1-8}$ -alkyl radical.

24. (Previously Presented) Composition having light-protection properties according to Claim 17, further comprising one or more further UV filters selected from the group consisting of 3-(4'-methylbenzylidene)-dl-camphor, octyl methoxycinnamate, 3,3,5-trimethylcyclohexyl salicylate, 2-ethylhexyl 4-(dimethylamino)benzoate, 2-ethyl-

hexyl 2-cyano-3,3-diphenylacrylate, 2-phenylbenzimidazole-5-sulfonic acid, and the potassium, sodium and triethanolamine salts thereof.

25. (Previously Presented) Composition having light-protection properties according to Claim 17, comprising one or more antioxidants and suitable for the protection of body cells against oxidative stress.
26. (Previously Presented) Composition having light-protection properties according to Claim 17, which is an emulsifier-free emulsion.
27. (Previously Presented) Process for the preparation of a composition, according to claim 17, comprising mixing a UV filter according to Claim 1 with a cosmetically or dermatologically suitable carrier and optionally further ingredients.
